They provided Jan-Mar 2016 file but the valley site was flooded I believe Dec 30, 2015 so there is no met data until March 24, 2016 due to damaged equipment I guess. So we do not have the winter quarter for the valley site in either 2015 or 2016. They (MDNR nor Ameren) have not provided me any data past March. I believe the intent is to provide me data quarterly after QA so there is a delay.

Thanks, Andy. Ameren/DNR hasn't provided any 2016 data yet?

Regards,
Ken

Ken,

I was instructed to provide you met data collected at Labadie. I've attached all of the onsite met

data I have.
